- TechWomen is an Initiative of the U.S. Department of State's Bureau of Educational and Cultural Affairs (ECA), launched in June 2011 by US Secretary of State Hillary Clinton. The Institute of International Education (IIE) in San Francisco manages TechWomen on behalf of ECA.
- TechWomen brings emerging women leaders in science, technology, engineering, and mathematics (STEM) from 21 countries in Africa, Central Asia and the Middle East together each year with their professional counterparts in the Silicon Valley and San Francisco Bay Area for a mentorship and exchange program.
- Katy Dickinson was the 2010-2011 Process Architect for TechWomen and has been a mentor in the program since then.

Mentors are Role Models

A role model is a person whose behavior, example, or success can be emulated by others.
